

Farouk Mahmoud

Senior Cost Control Engineer (Architecture)

Profile

Experienced engineering professional adept in project management, cost control, and architectural expertise. I have a track record of overseeing project expenditures, maintaining quality standards, and obtaining licenses for reconstructions. My background includes managing site projects and pursuing a Master's in Engineering/Industrial Management. Additionally, I bring valuable sales management experience connecting European FMCG brands with global markets.

Subcontractor, Orient for construction & Decoration OCD · Self-employed

Giza, Al Jizah, Egypt · On-site | Jan/2018 – May/2018

In my role as a subcontractor at the Cleopatra Square Compound project in Sheikh Zayed City, I was involved in the transformation of four standalone villas into twin villas. My responsibilities encompassed both the construction work and exterior finishing, contributing to the successful reconstruction of these properties in line with project specifications.

Site Manager, S.E Construction Co.

6th of October, Al Jizah, Egypt · On-site | Aug/2016 – Jan/2018

As a site manager and supervisor, I led the construction of four buildings in the Dar Masr project. Responsibilities included coordination, timeline adherence, and maintaining quality standards. Skills: Project Management, Quality Control, AutoCAD.

Architectural Engineer, Roaya for Engineering Consult and Projects Management

Giza, Al Jizah, Egypt · Hybrid | Oct/2015 – Aug/2016

During my tenure as an Architectural Engineer at the Technical Office, my primary responsibility was to create shop drawings and conduct detailed project assessments within the district. I focused on obtaining the necessary licenses for the reconstruction of various locations, contributing to the successful planning and execution of projects in compliance with regulatory requirements.
